

Database

A database on Hildur has been assigned to each student. This will be available for all the duration of the degree in AP Computer Science.

WARNING:

Don't delete your database (check your scripts for “**drop database...**”)

When working in group project, you will have to decide which database (among the group members databases) to use.

Hildur is hosting a Microsoft SQL Server 2019.

You can access your database with the following properties. **STUDYNUMBER** must be replaced with your UCN-id.

Hostname:	hildur.ucn.dk
Database name:	CSC-CSD-S211_ STUDYNUMBER
Login:	CSC-CSD-S211_ STUDYNUMBER
Password:	Password1!

Please save the scripts that you use for the creations of the tables and insertion of data. This database has to be used only for development, not for saving *real* data. Do not save any confidential information in the database.
